

Water Supply Systems for the Country Home, Vol. 2 (Classic Reprint) (Paperback)

By M K Snyder

Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from Water Supply Systems for the Country Home, Vol. 2 The Engineering Experiment Station of the State College of Washington was established on the authority of the act passed by the first Legislature of the State of Washington, March 28th, 1890, which established a State Agricultural College and School of Science, and instructed its commission to further the application of the principles of physical science to industrial pursuits. The spirit of this act has been followed out for many years by the Engineering Staff, which has carried on experimental investigations and published the results in the form of bulletins. The first adoption of a definite program in Engineering research, with an appropriation for its maintenance, was made by the Board of Regents, June 21 st, 1911. This was followed by later appropriations. In April, 1919, this department was officially designated, Engineering Experiment Station. The scope of the Engineering Experiment Station covers research in engineering problems of general interest to the citizens of the State of Washington. The work of the station is made available to the...
